PROFESSIONAL SUMMARY

Dedicated Environmental Science graduate with strong experience in health, safety, and environmental compliance within construction and industrial settings. Skilled in hazard identification, safety briefing coordination, and risk mitigation strategies, with a focus on enforcing site-specific HSE standards. Proven ability to lead worker inductions, monitor compliance during high-risk operations, and collaborate across teams to ensure safe working environments. Passionate about applying safety protocols in resource-intensive sectors such as mining, with a solid foundation in environmental law, pollution control, and waste management. Committed to protecting worker well-being and minimizing operational impact on surrounding ecosystems.

WORKING EXPERIENCE

PERNIM COMPANY LIMITED (National Service Personnel)

December 2024-Present

Project Management & Leadership Responsibilities

- Organized and conducted pre-task briefings for construction and electrical engineers at the Bank of Ghana construction site.
- Conducted induction training for 12 workers on the Bank of Ghana site project, ensuring they are aware of safety procedures and protocols.

Health Safety and Environment (HSE) & Compliance Responsibilities

- Monitored daily safety compliance at the Bank of Ghana headquarters construction site, identifying deviations during both active work and idle periods.
- Maintained safety standards during the grand canopy scaffolding installation at the Bank of Ghana, facilitating secure ceiling work.
- Supported the HSE officer in ensuring electrical workers (B.A.E) complied with safety protocols.

OYARIFA ZONAL COUNCIL (Environmental Intern)

October 2023 – December 2023

1. Public Health Inspections Enforcement

- Conducted joint inspections with Environmental Health officers to ensure compliance with public health regulations in Oyarifa at (17) restaurants and shops, identifying and addressing (11) public health violations.
- Identified public health risks and recommended corrective actions to improve compliance.

2. Public Health Enforcement and Legal Action

- Supported environmental Health officers in enforcing public health regulations through court actions in Oyarifa.
- Contributed to improving public health standards and protecting the community from health hazards.

JOIN PROJECT WITH UNIVERSITY OF BOCHUM, GERMANY (Intern)

February 2023 – June 2023

- Collaborated with international students on a research initiative exploring the environmental impacts and recycling potential of photovoltaic (PV) modules.

- Contributed to the development of innovative recycling methods for PV modules, evaluating their environmental benefits in both global and local contexts.
- Strengthened understanding of sustainable energy practices and deepened insight into the circular economy and its relevance in Ghana's energy sector.

GHANA NATIONAL CLEANER PRODUCTION CENTER, TEMA

(Environmental Intern)

October 2021 – December 2021

Environmental Impact Assessment (EIA) Monitoring

- Monitored Environmental Impact Assessments to ensure proposed projects complied with national environmental standards and flagged potential risks early.
- Assisted in reviewing development proposals for the EPA, offering practical insights that shaped decisions on project approvals and modifications.
- Contributed to a UNIDO-led initiative by helping design an Energy Conservation Module focused on boosting efficiency and cutting environmental impact.
- Completed hands-on training with the EPA in plastic sorting and recycling, strengthening knowledge of sustainable waste management and real-world implementation.

EDUCATION

Bachelor of Science, Environmental Science – Second Class Upper

Jan 2021 - Sept 2024

Kwame Nkrumah University of Science and Technology, Kumasi

Relevant Coursework: Environmental Pollution, Toxicology, Environmental Law, Geography, Microbiology, Environmental Management

Thesis: Inappropriate disposal of waste vehicle engine lubrication oil in Adenta and Oyarifa, Ghana.

Science, West Africa Secondary School Certificate Examination

Sept 2017 – Sept 2020

St. Peter's Mission Senior High School

SKILLS

Core Skills

- Effective Communication
- Team Coordination
- Analytical Skills
- Problem-Solving
- Adaptability
- Cultural Awareness

Technical Skills

- IBM SPSS
- Microsoft Office Proficiency

KWAME NKURMAH
University of Science and Technology

This is to certify that

Henry Kwesi Nukunu Junior Aboadi

Having pursued a prescribed course of study,
and having passed the requisite examinations this *1st November, 2024*
has been duly admitted by the University to the Degree of

Bachelor of Science
(Environmental Science)

SECOND CLASS HONOURS (Upper Division)

Given under our hand

Vice-Chancellor
